

Draft Climate Action Plan

List of Figures

Chapter One: <i>Introduction and Setting the Context</i>	Page
Figure 1-1: Opportunity Areas for Reducing Greenhouse Gas Emissions	1-3
Figure 1-2: The Greenhouse Effect	1-8
Figure 1-3: What One Ton of CO ₂ Looks Like	1-19
Figure 1-4: Community Emissions: Total Greenhouse Gas Emissions By Sector, 2005	1-20
Figure 1-5: Municipal (Government) Operations: Total Greenhouse Gas Emissions by Source, 2005	1-21
Figure 1-6: Calculating Fremont's Year 2020 Greenhouse Gas Emissions Reduction Goal	1-22
Figure 1-7: The Achievement Gap	1-23
Figure 1-8: Shoreline Areas Vulnerable to Sea Level Rise: Central Bay South	1-25
 Chapter Three: <i>Maximizing Energy Efficiency and Reducing Energy Use</i>	
Figure 3-1: Per Capita Electricity Sales: U.S. vs. California	3-3
Figure 3-2: Fremont Housing Stock by Year Built	3-15
Figure 3-3: Examples of energy efficient building retrofits	3-16
Figure 3-4: Commercial Energy End-Use Breakdown (2000)	3-19
Figure 3-5: Manufacturing Energy End-Use Breakdown (2000)	3-21

Chapter Four: *Solid Waste: How We Manage Our Material Resources*

Figure 4-1: Flow of Materials Through the Production/Consumption Cycle	4-2
Figure 4-2: 2008 Waste Characterization Study – Fremont Data	4-3
Figure 4-3: The Materials Management Hierarchy	4-5
Figure 4-4: The Cycle of Composting	4-9
Figure 4-5: Tomorrow’s “Cradle to Cradle” System	4-10

Chapter Five: *Water: Conservation is the Key*

Figure 5-1: The Water Supply – Use – Disposal Process	5-2
Figure 5-2: Direct and Indirect Use of Water by American Households	5-3

Chapter Six: *Municipal Services and Operations*

Figure 6-1: 2005 Greenhouse Gas Emissions from City Operations and Facilities	6-2
---	-----

Chapter Seven: *Adapting to Climate Change*

Figure 7-1: Complementary and Conflicting Adaptation and Mitigation Actions	7-4
---	-----
